Website purpose

MomentumDash is an advanced MERN Stack Admin Dashboard that revolutionizes the way administrators manage their tasks. Designed with a focus on user-friendly interfaces and powerful functionalities, MomentumDash enables you to streamline your administrative workflows and make data-driven decisions with ease. Using the latest technologies.

Project Overview

1. Intuitive User Interface

2. Efficient Data Management

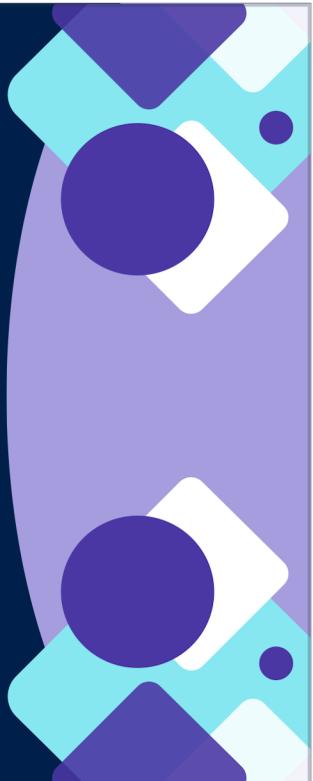

3. Powerful Data Visualization

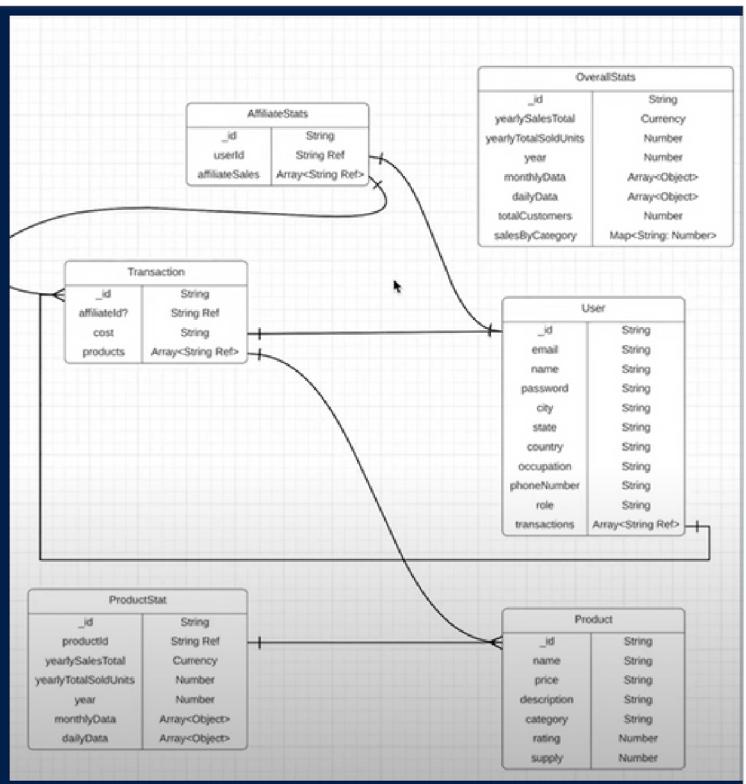

4. Customizable Dashboard Components

5. Advanced Data Analysis

- AffiliateStats: Tracks the sales statistics for affiliates
- OverallStats: Provides yearly sales and customer data, categorized sales, and other important statistics.
- Transaction: Records information about transactions
- User: Represents users of the system, storing their personal information and transaction history.
- ProductStat: Contains sales statistics for individual products
- Product: Stores product information such as name, price, description, category, and ratings.
